THE WHITE HOUSE WASHINGTON

Again the Government comes to the people of the country with the request that they lend their money, and lend it upon a more liberal scale than ever before, in order that the great war for the rights of America and the liberation of the world may be prosecuted with ever increasing vigor to a victorious conclusion. And it makes the appeal with the greatest confidence because it knows that every day it is becoming clearer and clearer to thinking men throughout the nation that the winning of the war is an essential requirement. The money that is held back now will be of little use or value if the war is not won and the selfish masters of Germany are permitted to dictate what America may and may not do. Men in America, besides, have from the first until now dedicated both their lives and their fortunes to the vindication and maintenance of the great principles and objects for which our Government was set up. They will not fail now to show the world for what their wealth was intended.

Woodrow Wilson

Saving Money To Win The War

Everybody has an increased income these war times. The farmer gets more for what he raises, the laborer gets more for his time, the merchant gets more for his goods. If we did not spend any more than we used to spend we should all be getting rich.

But the things we have to buy cost more. The fact that we have more money makes a great many people buy more than they ever bought before. This is extravagance.

But we ought to go without things more than we ever did before, and in that way we should be laying up money. We ought to let our children go barefooted. We ought to renew the honorable art of patching. Above all things, we ought to wear our old clothes and never change to something new for the sake of style.

How does this help win the war? If we buy less candy and soda water and cake there will be more sugar that can be shipped to France, and it is cheaper to ship sugar to France than to ship bulky foods like potatoes.

If we use fewer high heeled shoes and ruffles there will be fewer made, and the people who are making high heeled shoes and ruffles can turn their attention to making munitions which will be fired at the Germans.

Every true patriot will give up the fashions, wear patches and go without candy.

Education To Win The War

A Berea student only 22 years old sailed for France this week as acting major, in command of 500 men.

Why did the Government use so young a man? Because they could not find a better man to take his place.

The fact is that good schooling hastens the development of manhood. It makes people able to think straight and to think quickly, to bear responsibility.

For this reason President Wilson and the Government are urging every young man to go to school. Those who are above 18 will be enrolled in the Army at the larger schools like Berea where they will have special training to fit them for positions as officers, or as men of science to help make munitions, build bridges, and do other scientific work which is necessary to make the war go on.

To win the war we must have bravery, muscle and brain, but all these are multiplied ten-fold by training.

New York police-women are armed with "hollies," revolvers and hand-cuffs. And to think that not so long ago it was thought women needed no weapon save their tongue. Sad degeneration!

In the Crimea the deaths were 252,000, of which only 70,000 occurred in battle. In the U. S. war of secession the army of the North lost 110,000 men killed in battle and died of wounds and 221,000 men died of disease.

British aviators have destroyed three times as many airplanes as they have lost.

The rule of the Bolsheviks is anarchy, tempered by assassination.

The Toronto Telegram is horrified

by the thought that the rolling-pin is in danger of becoming a relic of "pie-gone" days.

A million watches have been ordered in Switzerland for the Yanks in France.

One of the latest: "Have you a wife?" inquired a British Tommy of a horse he had captured. "Nein," replied the German. "Nine!" gasped the Britisher in amazement. "Lumme, where's your iron cross, man?"

Toronto Telegram: "What became of your Swedish cook?" "Oh, she got her Irish up and took French leave."

Winnipeg will store 2,000 tons of coal for war widows and will sell to them at cost.

A LIBERTY LOAN LYRIC

By Gelett Burgess

I figure that the least that I can do is put the very most that I can raise
Into the Loan—then find a lot o' ways
Somehow, a' savin' more; put that in, too,
Untill I've doubled what I thought I knew
I could afford. Somehow, these days,
You want to suffer some—a man who stays
To home gets off too easy—me an' you!

I got a home, I got three meals a day;
I got good clo's, an' all my evenin's free,
The feller Over There ain't fixed that way,
An' yet they're there protectin' you an' me!
Good God! While they are bleedin', sufferin', dyin',
If we don't starve to save we ain't half tryin'!

"An enemy which does not understand that it is impossible to compromise between right and wrong," says Premier Clemenceau, in scorn, the poisoned hand within the peace-talk glove. A good many more violent things have been said about Germany, but when you think carefully through it, nothing could be more damning.

Schooling costs. You can't expect to educate a whole nation as we are about to educate Germany for less than billions.

Maybe the Kaiser knew the use to which we were going to put all of our gold some day, when he presented those plated yacht race cups.

October First Student Army Starts

On October first, next Tuesday, a students army training corps (S. A. T. C.) will be formed at Berea and each of the other larger colleges of our land.

The young men will be enlisted and organized Monday, but the formal flag raising and opening will be Tuesday. It is arranged that the student units at all the schools will meet at the same hour, and the time for schools in the region of "Central Time" will be eleven o'clock.

At this hour the corps will appear, the band will play, the flag will be raised on the campus, opposite the Tavern and Band Stand, and appropriate exercises will be held.

Lieut. Spures is already here, and other officers are on their way. Our own Tutor Van Hook, with several selected students has been in a Training Camp the past summer so as to be ready to aid in the administration of the Berea Company.

Pearsons Hall will be the "camp" of the college unit, and Howard Hall and adjacent barracks for the Vocational Unit, and the Y. M. C. A. building will be Headquarters.

Many young men are coming in from all directions to enlist in one or the other of these units.

Huge Measure Now Goes to the Senate for Final Action.

IS LARGEST IN HISTORY

Designed to Raise by Taxation \$8,182,000,000 of \$24,000,000,000 or More Needed for Current Year.

Washington, Sept. 23.—By unanimous vote, the house passed the \$8,182,000,000 revenue bill, the greatest tax measure in history. The roll call showed 850 members voting for the bill and not one against it.

Bill Practically Unchanged. The bill as passed practically is unchanged from the form in which it came from the ways and means committee September 11. A number of amendments were adopted during the three weeks' debate, but none of these amendments altered the essential provisions of the bill, nor changed any of the rates of taxation.

Now Goes to Senate.

The bill now goes to the senate finance committee which already has begun holding hearings on it. It is predicted that many of the sections in the bill will undergo radical change at the hands of the senate committee, particularly those fixing the rates of taxation on war profits and excess profits. Secretary McAdoo has indicated a desire to appear before the committee to explain why these rates should be changed, and other treasury officials are expected to advise the committee concerning other changes to be made in the bill.

Both Parties Satisfied.

"Republican and Democratic leaders in the house joined in expressing complete satisfaction with the bill as passed.

The closing speech on the bill was made by Representative Longworth of Ohio, who said that the measure not only levies the greatest tax ever levied upon any nation of the world, but is equivalent to nearly one-third of the total cost of the government from the time of Washington to the second term of President Wilson. He added: "The unanimous passage of the bill will be welcome news to our allies and cold comfort to the Kaiser and his satellites, because it shows that the American heart is truly set on carrying this war through to the finish. It is the best answer to the whining peace proposal of Austria. It is going to show that we propose to do business, not with the bull, but with the head of the dashhound and that we will force the dashhound to sit up and beg for mercy."

May Be Law by November 1. It was the general consensus of opinion that the final passage of the bill would not take place before November 1.

The tax scheme of the revenue bill dips into the pocketbook of every man, woman and child in the country. It was framed, according to its authors, upon the principle of levying taxes upon those best able to bear them, with the result that the bulk of the \$8,000,000,000 will come from large incomes and war profits, with the liquor traffic yielding up more than \$1,000,000,000 as its share.

GOMPERS WINS HIS POINT

Interallied Labor Conference Decision on War Alma Is Triumph for America.

London, Sept. 23.—The Interallied labor conference has been more protracted than had been expected, but after another extended discussion, arising mainly through objections of a small pacifist group, the entire report of the committee on war was adopted with virtual unanimity. This result is regarded as a triumph for Samuel Gompers, president of the American Federation of Labor.

In his vigorous reply to the pacifist objections Mr. Gompers said he had been in England three weeks, and had seen no flame of peace flying through the world, as had been described by someone calling himself a socialist. What he had seen was a spark here and there of fire from a torch carried by British and French labor movements on their way to discover an en-

DEMOCRACY NOT ENOUGH

The urge of rapine and murder which has broken out in Russia is evidence that democracy in itself is not a guarantee of good government. In that unfortunate country we see the rule of the demagogue, backed by an ignorant proletariat, in full flower. The results are worse than the tyranny of the most grinding autocracy. The autocrat as a rule at least makes some effort at promoting efficiency, and maintaining order and protecting and stimulating trade and industry. If he is ambitious, as was the Kaiser, it is part of his plan to do so. Good government is more a question of the spirit animating both rulers and ruled, than of form. Even ardent love of country is a motive that, like other virtues, can be carried to an extreme which makes it a positive danger and curse. We see this exemplified in the case of the German Junkers, whose one passion was love of Fatherland, any who lived frugally and labored incessantly to promote "Deutschland über Alles." The difficulty was that their love for the Fatherland was narrow and selfish, and made them blind to the rights of other nations. When it comes down to the final analysis, it is not democratic institutions, but the spirit of Christianity pervading all classes, that must be the real basis for national and international peace and happiness—the spirit which teaches both men and nations to "love our neighbors as ourselves," and to do as we would be done by. This is the only spirit that will assuage internal conflicts of class, as well as ensure international peace. Some men seem bent on reducing society to one commonplace level, and they call this democracy. They cannot permanently succeed in their efforts, even when they take such drastic methods as those now in vogue in Russia; and if they could succeed, the world would be neither so pleasant nor so happy a place in which to live. It was not without good purpose that men were made with varying ideas, fashions, aptitudes and capacities. A commonplace world would be a time habitation for mankind. But this is wandering from our original point, which was that it is the spirit of a people and its rulers that makes a great prosperous and happy nation, and not the form of government. To fear God and keep His commandments is the whole duty of the nation as well as of man. "The fear of God made England," says Froide, "and no great nation was ever made by any other fear."

From the Orillia (Can.) Packet

opportunity to live their own lives and end the Prussian menace to the world's liberties. Until that way is made clear for the world democracies, he said, the labor movement of the United States will stand undivided behind the allies.

BIG LAKE STEAMER MISSING

Wickwire, Jr., 504 Feet Long, 6,007 Tons, Overdue—May Be in Shelter.

Duluth, Minn., Sept. 23.—The big steel steamer Wickwire, Jr., 504 feet long, 6,007 tons, owned by the American Steamship company, is reported missing in Lake Superior. A heavy storm on Lake Superior has caused steamers to arrive late at the Soo, and the Wickwire, Jr., may be in shelter.

To See President Wilson.

An Atlantic Port.—Claiming to be one of five men who shot and killed Gregory Rasputin, Russian monk and "power behind the Russian throne," Dr. Stanislaus de Lazewski, formerly a colonel in the Russian army, arrived here on a British liner. Dr. de Lazewski said the other four assassins, all of whom are now dead, were Grand Duke Dmitri Pavlovski; another Grand Duke, whom he declined to name; M. Touchetone, Captain of the Guard, and M. Pourschickowitch. Dr. de Lazewski, who said he came to see President Wilson in connection with the Serbian situation, declared he had not been permitted to tell his story in the past, but added that he would tell it fully after his visit to Washington.

GERMANS RELIEVE AUSTRIANS

Hungarians Removed From the Front Lines in Lorraine—Shelling of Metz Continues as Great Quantities of Captured Material Are Hauled to Rear.

Washington, Sept. 23.—With the 10,000 prisoners which were brought in on September 18, we are not far from reaching a total of 200,000 Germans captured by the French, English and Americans since July 18," according to a French official dispatch.

With the American Army on the Lorraine front, Sept. 23.—A hundred Germans, led by two officers, debouched from Dompvilloux and attempted to capture six heavy machine guns and two light guns near the American advanced lines, but our batteries went into action, blowing up the post and scattering the enemy.

American patrols captured two heavy machine guns from the Germans.

A German patrol that was reconnoitering near Villeroy and Eny-en-ligne encountered an American force that took two of the German prisoners.

Austrians Quit Front.

With the American Army in Lorraine, Sept. 23.—All Austro-Hungarians have been removed from the German front lines in Lorraine and now are concentrated near Metz, according to 15 Austrians captured in the St. Hilaire region.

They confirmed the reports of ill-feeling between Germans and Austro-Hungarians because of the St. Mihiel retreat, one side blaming it on the other. The prisoners said the last Austrians were being relieved by Germans.

The Germans are now experimenting with a new type of small biplane, which is considerably smaller than the Fokker machine. The new airplanes are used as scouts. They are of 25-foot wingspread.

A French aviator flying with the American air forces brought one of these new machines down near Pont-a-Mousson, behind the German lines. He reports the new scout machines are extremely fast and good climbers.

Shelling of Metz Continues.

With the American Army in Lorraine, Sept. 23.—American long-range guns continue to bombard Metz, while guns of all calibers are breaking up every attempt of the Germans to bring forward reinforcements to front lines.

The rear areas have now been practically cleaned up. Huge boxes of captured German clothing, guns, ammunition and other supplies are being hauled to the rear.

Refugees are returning to their homes in recaptured villages, after four years' absence, and are attempting to find their homes among the ruins which have been left everywhere. The doughboys are assisting in this work of rehabilitation.

The Americans are more than a mile high with the inhabitants. M. Mercier sent his wife and two daughters to Nancy when the Boches invaded Thioncourt in 1914. He stayed behind to care for their home, expecting the enemy would soon be driven out. For four years the Germans made him quarter officers in their home and slave for them.

During the advance the report said the Americans were entering the town. All but a major died. He ran upstairs to pack up his things. When he came down, American bayonets caught him on the heels of the doughboys came Mercier's wife and daughters. It was a glad reunion, after four years of anxious separation. Mercier's family now cannot do enough for the Americans.

M'ADOO TO OPEN BIG DRIVE

Will Make First Address in Loan Campaign Tuesday at Carnegie Hall, New York.

New York, Sept. 23.—William G. McAdoo, secretary of the treasury, will deliver the principal address of the fourth Liberty Loan campaign at a meeting in Carnegie hall next Tuesday night, four days in advance of the drive, according to an announcement here by the loan committee for the second federal reserve district. This address, it was said, would probably be the only one Mr. McAdoo would make during the campaign.

BRITISH MONITOR IS SUNK

Twenty Men Are Killed and 57 Others Missing, Says Admiralty Report.

London, Sept. 23.—A British monitor was sunk as she was lying in harbor, the admiralty announced. One officer and 19 men were killed and 57 are missing and are presumed to have been killed.

World News

The German ambassador to Russia, Von Helfferich, who succeeded the man murdered by the people, has resigned his office. He accepted it only on the assurance that he would have a large German force of soldiers to protect him. Life in Russia is anything but pleasant for the German officials.

An expedition of Japanese soldiers has started along the Amur river, for a position in the interior of Siberia. American and Chinese forces are joined to the Japanese, who are to have the chief place and the supreme command.

French soldiers are reaping the rich crops, sown by the French, cultivated by the Germans during their occupation of the country between the Marne and the Vesle rivers, and now coming into possession of the French once more as their choicest prize.

The English, under General Allenby, the conqueror of Jerusalem, have dealt a severe blow to the Turks in Palestine. Many prisoners and guns were taken and the city of Nazareth is said to be in English hands. Moreover, the Arabs have been stimulated to rebel against Turkish rule and the prestige of Germany's ally seems to be waning.

Servian troops have pushed their way further north during the week and have taken many villages. Bulgarians and Germans are hurrying to oppose the Servians, and Italian soldiers are going to their aid.

Relations between Spain and Germany are becoming more strained each day. The policy of seizing German vessels in Spanish ports whenever merchant vessels are sunk is not accepted by Germany, and Spain's next move is doubtful.

The Austrian peace note has been promptly answered by Pres. Wilson in a short but decisive reply which takes the ground that the U. S. has already made its peace terms clearly known and a further conference is not needed.

A new election for members of the House of Commons is soon to take place in England and some changes are expected. There is no expectation that Lloyd-George will lose his leadership under a new House, but changes in the other members of the Cabinet are probable.

It is believed that a new Home Rule Bill for Ireland is to be drafted and the issue may figure largely in the political campaign that is likely to come soon. Conscription for the army in Ireland will be postponed until Home Rule is granted.

Mexico may yet be of great service to the U. S. by aiding us in the labor supply. Mexicans, impoverished by a long period of civil war, are needing work and money. The U. S. needs workmen and has money to pay them. Mexicans are coming to the U. S. in increasing numbers.

A report is current from Italian sources that the German Emperor is ill and has been obliged to cancel all important engagements. It is significant of public opinion that no sympathy is expressed from any source.

American Ship Sunk.

Cornwall, Spain.—Three officers and 27 of the crew of the American steamer Buena Ventura have arrived here. The vessel was torpedoed. Three boats with 64 of the crew were missing. The Buena Ventura was proceeding from Bordeaux, where she had unloaded a cargo of petroleum from Philadelphia. The vessel was of 4,881 gross tons, and belonged to the United States Steel Products Co.

How the Farmer can Help His Boys at the Front

Nothing is more natural than for you to be anxious to do everything in your power to help your boys who have gone to the front.

You were proud of them when they were children. You were proud of them when they grew up to be men and you were prouder than ever when they went away to fight for Uncle Sam and to help him to rid the world forever of the brutal Hun.

Nothing is more natural also than for you to wonder how the boys are getting on "over there", perhaps to worry, too, about whether your own boy is being taken care of and to wish that someone would tell you just what you could do to bring him safely home again.

Well, there is a way and a very good way for you to help your boys at the front.

Don't worry about hardships because Uncle Sam isn't going to let the boys suffer **SO LONG AS YOU DO YOUR SHARE**

Your share to help the boys is to see that Uncle Sam never lacks the necessary money to keep them supplied with everything they need.

The way to do this is to buy **LIBERTY BONDS** and buy them freely.

Every time you think of how you would like to help your boys, buy a Liberty Bond.

Talk to your neighbors about **LIBERTY BONDS** and get them to buy and keep on buying.

Letter to J. F. Fischer, Local Manager of the Spoke Factory, Regarding the Recent Fire

Terre Haute, Ind., Sept. 17, 1918. Standard Wheel Co., Berea, Ky.

Gentlemen:—This will acknowledge receipt of your letter of September 12th with reference to a general report of the fire at Berea. Mr. Coleman has returned and advises us of heroic work which you, as well as all the other fire fighters performed, and in behalf of the Company I desire to express our appreciation for the work rendered by you, the foreman of the section, as well as the section men themselves, and the townsmen who assisted in preventing the fire from doing greater damage.

We certainly are grateful to you all and would be glad to have a more adequate manner of showing our appreciation to you.

With very best personal regards, we remain,

Yours truly,

The Price of American Lives

ALL the money you ever hope to possess will not recompense his mother for the life of one American soldier.

But the money you pay for Liberty Bonds now will help save the lives of thousands of our sons, by shortening the war and insuring an early victory.

You should be thankful for the opportunity to put to such a splendid purpose every dollar you can save or borrow.

It may well be that the bond you buy will bring home to the arms of his loved ones, an American boy who would otherwise have perished.

LETTER FROM PROF. DODGE
Woodstock, Ill., Sept. 20, 1918.
To The Citizen:

The letter of last week was intended to be the last one of the trip. But Mrs. Dodge and I feel that it would be unfair, after writing of former Berean's met in the far west, not to make any mention of those well known and loyal ones whom we find nearer home.

In the Book Department of Marshall Field and Co., Chicago, we found Miss Rose Oiler, who formerly was a Berean student and an inmate of our home. For several years she has had an important position there. She took us to dinner, and we had a delightful visit. On another occasion we similarly enjoyed the hospitality of Miss Mary E. Adkins, who, six or eight years ago, spent some months with us, while recuperating from the wear of teaching. Since that time she has had responsible work in the Baptist Foreign Mission Society and along other lines. Many Bereans will be glad of the word of greeting which she sends to her friends.

Our visit at Oak Park, as the guests of Dr. and Mrs. W. E. Barton, will long have a grateful place in our memory. We had the satisfaction of hearing one of Dr. B's able sermons, in the new church, which

has arisen Phoenix-like, from the ashes of the old one, at a cost of \$258,000. We also were complimented with tickets to the concert given on the occasion of the dedication of their new and magnificent organ, one of the finest in the country. I felt honored by having a reception given us at the manse, the other guests being Civil War soldiers and their wives. All four of the Barton sons are now in some form of Government service, three in connection with the navy. Hence has given up the editorship of "Every Week," to engage in boosting the Liberty Loan. Dr. Barton's son-in-law, Clyde Stilwell, of Berea's '09 class, lives close by, and has two interesting children. He is an attorney for the McCormick Reaper Co. I went with him to North Berwyn, and there gave a patriotic address. At Oak Park we also called upon the family of Rev. Geo. T. McCollum, Berea, 1894, now Congregational Home Mission Field Secretary for Illinois. Here we found Miss Jean McCollum, last year's graduate from Berea College, and also Miss Frances Lauder, Berea, 1917, now a student of the University of Illinois.

At Woodstock we again have the pleasure of a visit at Todd Seminary, where Mrs. Dodge taught for several years. (Continued on Page Eight)

**DR. ROLLA HOFFMAN
RECOVERING**

Friends of Dr. Rolla Hoffman will be pleased to learn that word has reached America that he is recovering from a serious case of typhoid.

Dr. Hoffman is a medical missionary in charge of a hospital in Meshed, Persia. A cablegram to the New York office in April stated that he had the fever, and that his partner died after six days illness of typhus fever. His parents were unable to hear further from him until the recent letter which was written June 22nd. At that time the doctor was able to be about his room. His own hospital was closed and the Red Cross had taken him in charge and nursed him thru his long illness.

COMING! UNCLE SAM'S TROPHY TRAIN

SPECIAL TRAIN under auspices of U.S. Railroad Administration and U.S. Treasury Dept.

LOADED TO OVERFLOWING WITH BOOTY
Captured from Fleeing German Armies

"OVER THERE"
All the Instruments and Accoutrements of Modern German, Hellish Warfare
PLACED BEFORE YOUR EYES!

HEAR the SPEAKERS!
SEE the SPECIAL DETAIL of SOLDIERS!
By Special Arrangement of local LIBERTY LOAN committee
WILL STOP for TWO HOURS at

In Two Weeks a New Student Has More Friends in Berea Than Anywhere Else

This train is being sent out by the U. S. Government as a part of their educational propaganda,—that its citizens may see and know for themselves just what a depth bomb, an anti-aircraft gun, a German helmet, and all the other things that our newspapers and magazines are full of these days, really look like; and, incidentally, to help to prove the need of and arouse the interest in, the great Fourth Liberty Loan, which is about to be raised.

The War Trophy Train will arrive in Berea, from Richmond, at 9:55, on the morning of October 1. The exhibit and public speaking will commence at once, lasting until 11:55. From 11:55 until the train leaves at 12:55 it is expected that lunch will be served by the townspeople of Berea to the members of the group accompanying this exhibit,—a detail of U. S. soldiers and a number of prominent speakers, about twenty in all.

The exhibit is, of course, absolutely free. Those wishing to view it are requested to enter at the forward end of the first flat car. They will be conducted thru the three cars by soldiers who will explain the various exhibits as they go, and the exit will be at the rear of the last coach, at the back of the speakers' platform.

This is one of the most complete exhibits of war material and relics ever sent out by our Government.

Mr. Gay, the chairman of our own local board, will introduce the speakers of the day, and there will be two or three addresses of great interest.

We feel that this will be an educational opportunity which no one should miss.

BEREA AGRICULTURAL FAIR

Don't forget that Our Big Agricultural Fair is drawing near—October 24, 25, and 26. The first day all exhibits should be entered except live stock, which comes the second day. Get all farm, garden and home products ready—it's only a few weeks until the Fair. There will be some of the biggest men here to address the people that Berea has ever had.

Begin NOW to get things together. Don't wait!

SMUT TREATMENT FOR WHEAT

Stinking smut has caused widespread loss in Kentucky this year. It is practically impossible to buy seed that is entirely free from it. Consequently, not a bushel of wheat should be planted this fall without first treating it for smut. The formaldehyde treatment is easily given, is very effective, and it has largely supplanted the bluestone treatment. It is applied as follows: Spread the wheat out on a floor or clean canvas and sprinkle until thoroughly wet with a solution made by adding one pound of formaldehyde to a barrel (50 gallons) of water. Then shovel into a heap and cover with canvas or sack for a few hours. Spread and dry sufficiently to sow.

RAISE WHEAT

The Kaiser can have no hope of gaining the mastery of the seas, so that even if his armies overrun France and Italy, how does he expect to conquer England and the United States?

This is easily answered. He expects them to quit. As a recent editorial in one of our popular periodicals states, "He hopes there is enough laziness and selfishness and cowardice in the people of these countries to give the game into his hands. He thinks they will get tired of fighting. He thinks they cannot stand the gall."

He banks on the claps who resent having their profits and pleasures interfered with, their diet regulated, on the big capitalist who forestalls as much as the law allows him; on the man who will not buy a Liberty Bond when he can get 8 per cent on a mortgage, and the labor leader and wage earner who will strike even against the Government. To this we may add, "He also banks on the farmers who will not plant wheat because some other less essential crop is more profitable." There are undoubtedly a few farmers who, because they think they have not been treated fairly in the matter of price, have worked themselves up to such a state of self pity, and feel themselves so abused, that they are ready to quit. The thing to do with such men is to send them to the front in France and let patriotic men run their farm; men who are willing to forego profits for the welfare of their country. We must plant every possible acre of wheat this coming year. Only the German sympathizer or the slacker will stop now to consider the question of profits.

If the price fixed by the Govern-

ment is not high enough or not a fair one, the thing to do is to make a strenuous fight to secure the price which is fair. In the meantime, the country will not tolerate the man who refuses to plant wheat unless he is promised a higher price any more than it will tolerate the profiteer in any other business.

Clover Bottom, Ky., Sept. 6, 1918.
Mr. Robt. F. Spence,

Dear Mr. Spence:—I am awful sorry that I can't come to the State Fair, though I am planning on coming to Berea and bring my pig. My pig is an awful good one, I think. My corn has done pretty well. I planted cow peas in my corn. My corn came up pretty well. I planted tested corn; it was yellow.

Yours as ever,

Nelson Hurst,

Agricultural Club Boy

Orlando, Ky., Sept. 6, 1918.

Dear Mr. Spence:

Sure, I am going to the State Fair! I got my instructions how to get there; but I haven't got my badge yet.

My corn looks very well; hope to have a good crop.

My pig is looking good. Our fair will be October 17. Hope to see you there.

I am yours truly,

Frank Johnson,

Agricultural Club Boy

NOTE, from County Agent Spence. —We want every Agricultural Club member to show his corn, pig, poultry, beans, and onions at the Berea Agricultural Fair, October 25, 26, and 27. Watch for a premium list. All live stock will be exhibited on second day, October 25th.

SIX DOORS

FOR ASPIRING YOUNG PEOPLE

1st Door—Berea's Vocational Schools

Training that adds to your money-earning power, combined with general education.

FOR YOUNG MEN—Agriculture, Carpentry, Bricklaying, Printing, Commerce and Telegraphy.

FOR YOUNG LADIES—Home Science, Dressmaking, Cooking, Nursing, Stenography and Typewriting.

2nd Door—Berea's Foundation School

General Education for those not far advanced, combined with some vocational training. No matter what your present advancement, we can put you with others like yourself and give chance for most rapid improvement.

3rd Door—Berea's English Academy Course

For those who are not expecting to teach and who are not going thru College and desire more general education. It also gives the best general education for those who wish a good start in study and expect to carry it on by themselves.

4th Door—Berea's Normal School

This gives the best training for those who expect to teach. Courses are so arranged that young people can teach through the summer and fall and attend school through the winter and spring, thus earning money to keep right on in their courses of study. Read Dinsmore's great book, "How to Teach a District School."

5th Door—Berea's Preparatory Academy Course

This is the straight road to College—best training in Mathematics, Science, Languages, History and all preparatory subjects. The Academy is now Berea's largest department.

6th Door—Berea College

This is the crown of the whole institution, and provides standard courses in all advanced subjects.

A Temporary Raise in Board is forced by war conditions. For twenty-five years the board has remained the same in Berea, but the unusual situation in which the whole country finds itself now makes it impossible for us to live on the same money as we have in the past.

This adds \$6.60 to the former expenses of the girls and \$15.00 to the expenses of the boys, but still leaves the cost half that at other schools and "cheaper than staying at home."

PAYMENT MUST BE IN ADVANCE, incidental fee and room rent by the term, board by the half term. Installments are as follows:

	FALL TERM		
	VOCATIONAL AND FOUNDATION SCHOOLS	ACADEMY AND NORMAL	COLLEGE
Incidental Fee	\$ 5.00	\$ 6.00	\$ 7.00
Room	7.00	7.00	7.00
Board, 7 weeks	12.25	12.25	12.25
Amount due Sept. 11, 1918 ..	24.25	25.25	26.25
Board, 7 weeks, due Oct. 30 ..	12.25	12.25	12.25
Total for Term	\$36.50	\$37.50	\$38.50
Expenses for Girls			
Incidental Fee	\$ 5.00	\$ 6.00	\$ 7.00
Room	7.00	7.00	7.00
Board, 7 weeks	10.50	10.50	10.50
Amount due Sept. 11, 1918 ..	22.50	23.50	24.50
Board, 7 weeks, due Oct. 30 ..	10.50	10.50	10.50
Total for Term	\$33.00	\$34.00	\$35.00

* This does not include the dollar deposit nor money for books or laundry.

Special Expenses in Addition to Incidental Fee—Business

	Fall	Winter	Spring
Stenography and Typewriting	\$14.00	\$12.00	\$10.00
Bookkeeping (brief course)	14.00	12.00	10.00
Bookkeeping (regular course)	7.00	6.00	5.00
Business course for students in other departments:			
Stenography	10.50	9.00	7.50
Typewriting, with one hour's use of instrument	7.00	6.00	5.00
Com. Law, Com. Geog., Com. Arith., or Penmanship, each ..	2.10	1.80	1.50

In no case will special Business Fees exceed \$15.00 per term.

All students do some work with their hands from six to sixteen hours a week as janitors or in the farm, carpenter shop, printing office, laundry, boarding hall, office, etc., and receive pay which reduces their expenses.

Any able-bodied young man or young woman can get an education at Berea if there is the will to do so.

If it is impossible for any young man or young woman to be in school the full year, by all means they should enter for a course during the winter and spring terms.

The public schools will close about Christmas and the teachers and advanced pupils should not be idle through the long winter months but should be studying in Berea where the best education can be gotten for least money.

Applicants must bring or send a testimonial showing that they are above 15 years old, in good health and of good character. This may be signed by some former Berea student in good standing or some reliable teacher or neighbor. The use of tobacco is strictly forbidden.

Piano Playing.

No instrument has such a vast literature, as rich and voluminous, as the piano, and more people are teaching and studying it than any other instrument. The reason that, in spite of its popularity, there are only few who play it well and artistically is that the majority of people consider piano playing more as a means of amusement and a pleasant diversion than as a medium with which it is possible to produce the deepest feelings and the highest in art.

What Liberty Bonds Are

What are Liberty Bonds? Liberty Bonds are promises of the United States Government to pay money at a future date with interest; for example, a \$50 Third Liberty 4 1/4% bond is a promise to pay the bearer \$50 on Sept. 15, 1928, with interest in the meantime at 4 1/4%, i. e., \$2.12 per year or \$1.06 on every March 15 and September 15 until the bond is paid.

MADISON COUNTY

Blue Lick

Blue Lick, Sept. 21.—Tobacco, corn and late vegetable crops just attaining to maturity, when lo, down came the frost. "The clear cold frost, as falls the plague on men." The leaves blushed crimson at his icy ardent embrace; the corn became pallid from fright; the tobacco wilted on the stalk if possible for tobacco to be abashed and the poor beans and sweet potato vines black with astonishment. Let us not murmur if our losses seem irreparable, it is ungrateful and useless to lament over weather conditions. They could not happen unless it were God's will. It is a test of faith, so accept it as inevitable. "Patience and resignation are the pillars of human peace on earth."—Dr. Weidler, of Berea College, accompanied by Mrs. Weidler, Miss Childs and Miss Miller, of the Academy Department of Berea College, were welcome visitors at Blue Lick church, Sunday. The fine exposition of the Sunday-school lesson and the inspiring sermon by Dr. Weidler were by no means "wasted on the desert air," even tho the attendance was slim. We were made to realize that the speaker was in possession of great power which is at the bottom of every great character. The soul of God is passed into the world thru the throats of such men, which accounts for the source of their power. Mr. Weidler emphasized the inestimable blessing of the observance of the Sabbath day, interposed as it is between the waves of worldly cares like the green oasis, the still waters, and grassy meadows, refreshing man mentally, morally and spiritually.—Mr. and Mrs. Carl Hunt of Berea, and little daughter, Helen, were visitors at the home of Mr. and Mrs. T. J. Flanery Saturday night.—Raymond Isaacs, a former student of Berea, is visiting friends in this section.—Hay Mainous and wife visited at the home of Mr. and Mrs. M. B. Flanery near Kingston, Sunday.—Mr. Yager, Mrs. Flanery's father, is sinking rapidly. They believe the end is near.

LESSON FOR OCTOBER 6

ABRAM LEAVING HOME.

LESSON TEXT—Genesis 12:1-9.
GOLDEN TEXT—Be thou a blessing.—Genesis 12:2.
DEVOTIONAL READING—Hebrews 11:1-10.
ADDITIONAL MATERIAL FOR TEACHERS—Genesis 11:27-32; Hebrews 11:8-10.

1. Abraham's Call (v. 1).

The new era inaugurated with Noah at its head ended in a colossal failure. In view of such failure God turned aside from the nation as such, and called Abram out from his kindred and land, and placed him at the head of a new nation which he would train for himself. This call involved:

1. A call to separation. He was to leave the place of his fond associations for a land unknown to him. Obedience to this command meant the severance of three ties.

(1) "His country in the widest range of his affections. (2) His place of birth and kindred, which comes closer to his heart. (3) His father's house, as the inmost circle of all tender emotions. All this must be cast off before the Lord could get him into the place of blessing. When kindred and possessions stand in the way of love and service to Christ, one must renounce them (Matthew 10:37).

2. A call to heroic tasks. For Abram to go into a strange land and take possession of it for God called for the heroic in him. It costs much to live the life of separation, but it is the only way to have God's favor. Those who are children of faithful Abram must trust God.

II. God's Promise to Abram (vv. 2-3).

God's demand for separation was followed by a seven-fold promise—a gracious engagement on the part of God to communicate certain unmerited favors and to confer blessings upon him. 1. "I will make of thee a great nation" (v. 2). This in some measure compensated for the loss of his country. He escaped from the degrading influences of his own nation, and became the head of a chosen nation. This was fulfilled in a natural way in the Jewish nation and in Ishmael (Gen. 17:20), also in a spiritual sense embracing both Jews and Gentiles (Galatians 3:7-8).

2. "I will bless thee" (v. 2). This was fulfilled (1) Temporally (Gen. 13:14-17:24-35). He was enriched with lands and cattle, silver and gold. (2) Spiritually (Gen. 15:6; John 8:56). He was freely justified on the grounds of his faith. The righteousness of Christ was imputed to him.

3. "And make thy name great" (v. 2). He renounced his father's house, and became the head of a new house which would be venerated for and wide. He

is known as the friend of God (James 2:23).

4. "Thou shalt be a blessing" (v. 2). It was a great thing to be thus honored and blessed by God, but to be the medium of blessings to others was greater still. It is more blessed to give than to receive.

5. "I will bless them that bless thee" (v. 3). God so identified himself with his servant that he regarded treatment of Abram as treatment of himself. Christ so completely identifies himself with his people that he regards wrong done to them as done to himself. Since he was God's friend, God regarded acts performed toward Abram as performed toward himself. In all ages since then the nations and individuals that have used the Jew well have been blessed.

6. "And curse him that curseth thee" (v. 3). The nations that have been against the Jews have never prospered. While God at different times used the surrounding nations as scourges of Israel, he in turn punished them for their mistreatment of Israel.

7. "In thee shall all families of the earth be blessed" (v. 3). This has been fulfilled (1) In the Jewish nation being made the repository of the Oracles of God. Through them the Bible has been given to the world. (2) The bringing into the world of the Redeemer.

(3) In the future time when the Jews shall be God's missionaries in carrying the good tidings of the Gospel to the ends of the earth.

III. Abram's Obedience (vv. 4-9). Abram at once departed out of his own land. He proved his faith by his works. He did not argue or parley. Neither did he demand some guarantee, but stepped out upon God's naked word. There were difficulties in his way, but faith in God made him brave. Faith in God gives victory over the world. He worshiped God. To go into a heathen land and establish true worship requires a courageous faith.

Secrets in Our Heart.

We talk about searching our hearts. We cannot do it. What we want is to have God search them. . . and bring out the hidden things, the secret things that cluster there.—D. L. Moody.

Testaments for Soldiers.

years, previous to our marriage. To the energetic and successful Principal, Noble Hill, the writer was privileged to present Berea's diploma. In the early '90's. At this place we were permitted to have another visit with our Mrs. E. E. Rogers, beloved by so many, in various states. Some others whom it was a joy to see were Miss Carol Hill, Miss Anna Dickson, Miss Eschbach, Miss Sybil Hendricks, an efficient Berea teacher of some years ago, and her sister, Mrs. Judge Sniley, who sojournd in Berea for several weeks. At this point I must turn from history to anticipation, and merely allude to the delightful time which it requires no prophetic anointing to predict that we shall have, at the home of Mr. and Mrs. E. S. Fee, one of the heroic John G. Fee, the other a successful music teacher of years ago.

GRAND-PERE JOFFRE

And so when he reached my bed The General made a stand: "My brave young fellow," he said, "I would shake your hand."

So I lifted my arm, the right, With never a hand at all; Only a stump, a sight Fit to appal.

"Well, well. Now that's too bad! That's sorrowful luck," he said; "But there! You give me, my lad, The left instead."

I raised and showed him the other, A snag as ugly and grim As its ugly brother.

He looked at each jagged wrist; He looked, but he did not speak; And then he bent down and kissed Me on either cheek.

You wonder how I don't mind I hadn't a hand to offer. They tell me (you know, I'm blind, 'Twas Grand-pa Joffre.
